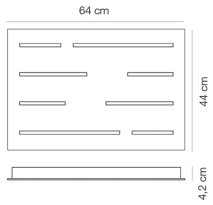
02905 LED Ceiling lamp

Aur



Ceiling lamp
37,5 W
5800 Lumen
CRI90

Description: In the Aura collection the beauty of the glass is enhanced by the colours and material used. The glass is obtained from one single sheet, without holes or cuts. The effect of the lines is created by the combined use of different work techniques on the glass. The coloured glass is interrupted by satin-finish lines that allow passage of the light and become distinctive elements. The glass diffuser is fixed by a magnet system which allows quick easy installation. The unique element of this lighting product is the glass which features different artisan techniques: the glass decorations are hand-done by skilled local craftsmen, giving Aura the uniqueness and refined elegance of a handmade product.

Plus: The coloured glass is interrupted by satin-finish lines that allow passage of the light and become distinctive elements. Magnetic temperament: the glass reflector is fixed by a magnet system which allows quick easy installation. The unique element of this lighting product is the glass which features different artisan techniques: the glass decorations are hand-done by skilled local craftsmen, giving Aura the uniqueness and refined elegance of a handmade product.
