

Wall lamp
GX53 1x7 W

Description: Dado is a collection of compact wall lights, electrified with GX53 fitting. Its geometric shape offers plenty of scope for different combinations, playing on changing shapes and forms that become part of the furnishing scheme. Compact, simple and linear without being banal. Its pure form blends in with different furnishing styles, highlighting the space and creating striking chiaroscuro lighting effects.

Plus: The collection includes accessories, these are metalplates that can be installed together with the lamp in order to cover holes or J-boxes. The bulbs are not included in the lamp, they are supplied separately on order.
