**Description:** A dive into the origins starting from the concept of the classical "lamp" ("lampara"), Narciso is meant to be a collection expressing the idea of light as a landmark in the space. The overlapped and plain shapes lead and define the light diffusion. The canopy has a functional design with a magnetic coupling that ensures an easy and fast installation. Attention to visual comfort in the study of the pattern on the acrylic diffuser. Each detail is studied and prepared carefully.

**Plus:** It is an object characterized by an elegant expressive impact. Narciso catches the eye. When it is turned on, the bottom part of the conical diffuser reflects its own light, emphasising its shape and its finish. The recyclable aluminium structure and integrated LED make this a sustainable lighting product. Attention to detail in the 100% hand-brushed aluminium and brass, an artisan touch that makes each product unique.
